

MOHAMMED BASIL MAHMOOD YUNUS

Senior Land Surveyor | General Land Surveyor

Jeddah, Saudi Arabia

Phone: +966544883336 | Email: ss.guess@hotmail.com

Saudi Council of Engineers Member: Technician, Surveyor General (Since 2018)

PROFESSIONAL SUMMARY

GENERAL LAND SURVEYOR WITH 12 YEARS OF FIELD EXPERIENCE DELIVERING CONSTRUCTION,

municipal, cadastral, and engineering consultancy land surveying services across Saudi Arabia. Experienced in Senior Land Surveyor, Construction Surveyor, Site Surveyor, and Survey Engineer responsibilities, including Survey Crew Chief leadership on multi-villa housing projects. Proficient in Total Station (Leica, Trimble, Topcon), GPS, GNSS/RTK, Level, AutoCAD, Excel, GIS platforms, and geomatics field workflows. Specialized in setting out, topographic survey, as-built documentation, cadastral survey, control points establishment, shop drawings, red line verification, and UTM coordinate systems. Track record as Land Survey Technician and GIS Technician supporting Ministry of Housing projects, municipal GIS submissions, survey inspection, and consultant QA/QC workflows. SCE member with HSE field awareness and bilingual communication (Arabic/English).

CORE SKILLS

HARDWARE: TOTAL STATION (LEICA, TRIMBLE, TOPCON), GPS, GNSS, RTK, LEVEL,

Control Points Instruments

Software: AutoCAD, Excel, GIS Platforms, Municipal Submission Systems (Etmad, Balady)

Survey Types: Setting Out, Topographic Survey, As-Built Survey, Construction Survey, Cadastral Survey, Land Subdivision, Boundary Demarcation, Coordinate Systems, UTM, Land Surveying, Geomatics

Professional Titles: Senior Land Surveyor, Construction Surveyor, Site Surveyor, Survey Engineer, Land Survey Technician, GIS Technician, Survey Inspector, Cadastral Surveyor, Survey Crew Chief

Deliverables: Shop Drawings, Red Line Verification, Technical Reports, Plan Preparation, QA/QC Documentation, HSE Field Compliance

PROFESSIONAL EXPERIENCE

GENERAL SURVEYOR

Farasan Islands Municipality, Jazan, Saudi Arabia

2025 - Present

- Surveyed and documented 1,400+ residential plots using GPS and Total Station, supporting municipal planning and GIS integration requirements.
- Prepared AutoCAD survey drawings and technical plans aligned with municipal submission standards and coordinate system specifications.
- Uploaded approved survey plans to Jazan Municipality GIS platform, maintaining

data accuracy and record integrity for municipal archives.

- Conducted topographic survey and setting out for residential development zones under municipal supervision and QA/QC review.
- Delivered construction survey documentation with coordinate verification before official plan submission.

General Surveyor

Manate Al-Amah General Contracting Company, Abha, Saudi Arabia

2024 - 2025

- Completed construction survey and setting out for 20 residential villas under Ministry of Housing programs, meeting project schedule and accuracy targets.
- Established building control points and verified shop drawings against approved design coordinates using Total Station.
- Prepared as-built survey records and technical reports for consultant review and project handover documentation.
- Coordinated field measurements with engineering teams to maintain red line compliance and construction layout accuracy.
- Supported QA/QC checks for survey deliverables on active construction sites.

General Surveyor

Mahra General Contracting Company, Jeddah (Al-Khomrah), Saudi Arabia

2023 - 2024

- Led a field team of 4 surveyors as Survey Crew Chief on multi-villa housing projects, delivering setting out and plan documentation on schedule.
- Executed construction survey works for 48 residential villas under Ministry of Housing requirements using Total Station and GPS.
- Interpreted building survey points and structural plans to support accurate field layout and UTM coordinate alignment.
- Produced AutoCAD survey drawings and as-built documentation for consultant approval and project closeout.
- Maintained HSE standards and QA/QC procedures during field operations.

General Surveyor

Al-Amjad Engineering Consultancy Office, Jazan (Al-Darb), Saudi Arabia

2020 - 2023

- Completed land subdivision, boundary demarcation, and deed application surveys in compliance with Saudi land regulations and municipal requirements.
- Performed topographic survey and setting out for residential and commercial projects using Total Station, GPS, and Level.
- Uploaded engineering plans to municipal and government platforms (Etmad, Balady) for official review and approval workflows.
- Prepared technical survey reports, shop drawings, and coordinate systems documentation for consulting project deliverables.
- Verified red line boundaries and construction survey accuracy with engineering teams before plan submission.

General Surveyor

Abdul Karim Engineer Consulting Company, Jazan (Al-Darb), Saudi Arabia
2013 - 2020

- Delivered land subdivision, boundary demarcation, and deed registration surveys for residential and agricultural parcels across southern region projects.
- Established control points and performed topographic survey and setting out using Total Station, GPS, and Level for consulting assignments.
- Analyzed field data and prepared technical reports and AutoCAD drawings for municipal and private sector clients.
- Coordinated field crews and engineering consultants to deliver project plans on schedule.
- Maintained QA/QC standards for as-built documentation and coordinate systems verification on all survey deliverables.

EDUCATION

TECHNICAL DIPLOMA - SURVEYING SPECIALIZATION

Technical Thrift Gap Institute, Al-Faisaliah District, Jeddah, Saudi Arabia
2017
